

FREE Virtual ASL Smartphone Training

Contact us to attend a **FREE** virtual ASL training through **Zoom** or **VP** (Videophone) to help make your smartphone the best communication tool it can be!

Learn how to:

- Use the basic functions of your iPhone or Android
- Explore the Accessibility menu...and much more!

To participate in a **Zoom** training you will need a computer or tablet, internet service and a valid email address.

To participate in a **VP** training, you will need a Videophone and a valid email address.

This is a two-part basic training. Both part 1 and part 2 are required to complete the training.

To register for a smartphone training:
